Young Democrats of Tulsa Will Have No Candidate for President of State Organization.

## DELEGATES NAMED TO MEET

Large Number Will Go From Here to Annual Convention at McAlester Saturday.

Tulsa will have no candidate for the presidency of the Young Men's Democratic club of the state at McAlester Saturday. A. C. Hunt, Tulsa attorney, whose name has been mentioned as a candidate for the state office, stated to friends before the meeting of the local club opened at the courthouse last night that he would not be a candidate because the time remaining till the election is too brief to make a proper campaign. No other move was suggested.

The three strongest candidates for the presidency are Harry Diamond of Muskogee, Leonard Lewis of Muskogee and Ed Butterfield of Oklahoma City. William Armstrong of Oklahoma City is the present head of the state organization.

In the absence of action by the club to name a candidate, the Tulsa delegation will go to McAlester unopposed and the chances are that it will throw its support to one of the men opposing the Oklahoma City candidate.

A large number of the members favor Ed Diamond and it is likely that the Holdenville man will swing a large majority of the majority votes.

A. C. Hunt was elected president of the Tulsa club to succeed Lee Daniel who was drafted last summer and is at present in a government hospital in New York. Other officers were: L. Stout, vice president; E. E. Miller, secretary, and O. J. Weaver, treasurer.

To become more active. By the appointment of an entertainment committee composed of Horace Hagan, Ed Marshall and A. E. Montgomery, the club adopted the suggestion to become more active and a series of smokers, banquets and other entertainments are to be planned to maintain interest in the club.

## HALF MILLION ARMY PLAN IS BEATEN

amendment at \$30 a month, the war time basis in the army.

Camouflage Charged. Republican Leader Mann in explaining the vote of 155 republicans against adopting the rule to consider the senate bill, said opposition was not against the bill, but was a protest against the failure to consider a temporary program that would enable the quicker return of troops from Europe. The recruiting bill itself was adopted without a dissenting vote.

"If the democrats," said Mr. Mann, refuse to let the house consider legislation that will bring drafted men home, the responsibility is with the democrats."

Mr. Mann's declaration brought sharp retorts from the democratic side. Representative Humphreys of Mississippi declared that "no demagoguery can make the boys in France believe that we are trying to keep them there." His declaration for a small army was vigorously applauded by the democrats, as was also his assertion that the soldiers should not be held abroad for police duty.

"A good deal of political camouflage is being indulged in here," said Representative Jordan of Ohio, democrat. "This legislation has nothing to do with bringing the men back. No one ever suggested that anyone of the proposed army of a half million were to go to France. Such talk is political material to meet the exigencies of the occasion. The war department is returning the men as fast as it can find shipping for them."

When the rule was being debated Mr. Mann predicted that it would not be possible to enlist 175,000 men if "they were to be tied to the army for seven years," three years active service and four in the reserve. Such plan, he declared, would lead to the president declaring that the emergency for the conscript army still existed so America might do its part in policing Europe.

"You will, under such a plan, be drafting men against their will," he declared. Other republicans expressed similar views and urged that the house be permitted to consider the larger army proposal.

Representative Jones of Texas and Wise of Georgia, democrats, declared it would be possible to enlist a force of 175,000 under the national defense act and added that a half million men were unnecessary. After disposal of the recruiting law the house resumed work on the army appropriation measure, which had been delayed by other business since last Saturday. All legislation in the bill was quickly eliminated on points of order.

A point of order by Representative Madden of Illinois against another legislative rider prohibiting the wearing of service chevrons also was sustained.

Nothing Like Plain Nitro-Phosphate to Put on Fire. Quality Vital to Increase Strength, Vigor and Nervous Force.

Judging from the countless preparations and treatments which are made for the purpose of making thin people fat, developing arms, neck and chest, which nearly always accompany a lack of health, there are evidently thousands of men and women who really need their excessive thinness.

Thinness and weakness are usually due to a lack of vitality. Nitro-Phosphate is a natural product which is contained in modern foods. Physicians claim there is nothing that will supply this deficiency in the body faster than the organic phosphate known as drug grade Nitro-Phosphate, which is not a stimulant, but a natural product of the body. It feeds the nerves directly and by supplying the body with the necessary phosphate food elements, Nitro-Phosphate quickly produces a complete transformation in the appearance of the individual, the increase in weight being astonishing.

This increase in weight also brings with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear, dull eyes become bright and pale cheeks glow with the bloom of perfect health.

CAUTION: Although Nitro-Phosphate is unparagoned for relieving nervousness, sleeplessness and general weakness, it should not be used by those who are suffering from high blood pressure, or by those who do not desire to put on flesh.

## Four Fire Calls Answered.

Fire of unknown origin destroyed a barn at the Country club last night. The structure was of wood and was completely destroyed. The damage is placed at about \$2,000.

The fire department also made runs to the Prince hotel, 812 South Main and North Boston yesterday. A defective wiring caused the blaze at the Prince. Grass fires were responsible for the other two runs. There was no damage.
